CHANGES MADE IN ORGANIZATION

27 MARCH 1959

25X1A6a

1. A one-man Technical Inspection Staff was abolished. The position and functions were placed in the General Supply Branch.
2. The Transportation Division was abolished. The motor pool function was placed in the Administration and Services Division. The Traffic Branch, managing the transportation of things, was placed in the Supply Operations Division.
3. The Box and Machine Shops, formerly branches in the Administration and Services Division, became sections in the General Supply Branch, Supply Operations Division. This strengthened the operational control of their work and de-emphasized the miscellaneous support services
